Dear Mr. Nilles:

This letter is in response to your letter dated January 4, 2005 which raised a number of issues. At the time the Site Inspection report was sent to you, we stated in the cover letter that "EPA is currently evaluating this report to determine if further action under the Comprehensive, Environmental Response Compensation and Liability Act (CERCLA) is warranted." EPA has not yet made any determinations about this site.

EPA is considering holding a meeting with the involved parties to discuss potential options for this site. You will be invited to this meeting. I expect this meeting will take place within the next two months.

I would like to restate that the Kitsap County Health District is currently the designated lead regulatory agency for this site. If you are interested in pursuing any cleanup activities, I strongly encourage you to coordinate with the Health District.

If you have any questions, or would like to discuss this site further, please do not hesitate to call me at (206)553-2594.

Sincerely,

A handwritten signature in black ink, appearing to read "Joanne LaBaw".

Joanne LaBaw
Site Assessment Manager
